

How imaginative can you be? Can you show us what else you can make cress out of?

Cress Head Craft

Step 2- Decorate your eggshells, these are now your cress heads. I used pom poms, sequins and sharpies to decorate mine.

Step 1- You will need an empty eggshell (or as many as you would like). Make sure the top of your eggshell has a big enough hole to fit cotton wool inside.

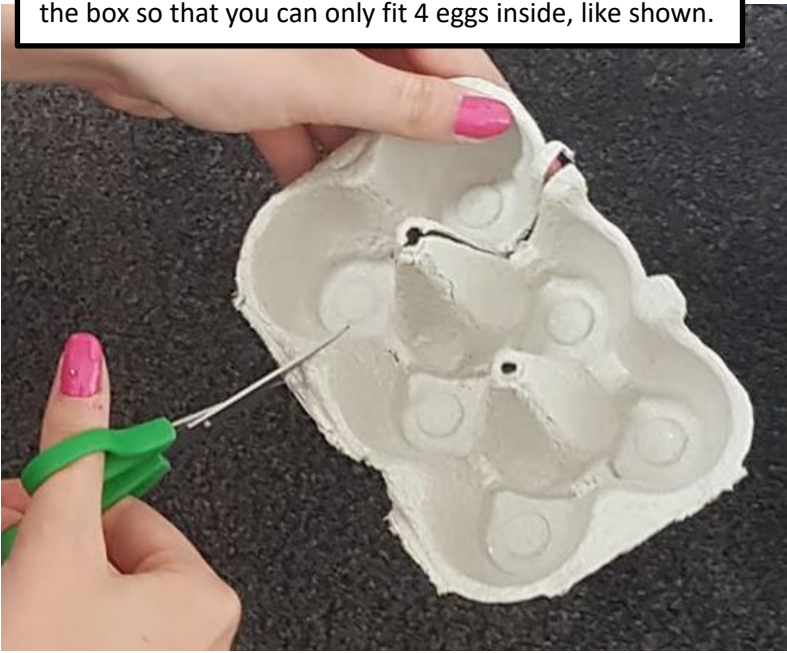

Cress head number 1.

Cress head number 2.

Step 3- Grab an empty egg box that fits 6 eggs and cut the box so that you can only fit 4 eggs inside, like shown.

Step 4- Then, cut off the taller pieces of cardboard so the egg box can stand up without falling over.

Step 5- Flip your egg box over, and the hole is where your cress head will go.

Step 6- Next, you will need a small ball of cotton wool, place this cotton wool inside your eggshell, making a little bed for your cress to sit on. (Do the same to your other eggshells if you have made more than 1).

Feel free to decorate your egg boxes too!

Step 7- You will then need a teaspoon of cress. Place the cress on top of your cotton wool bed.

Step 8- Add 2-3 teaspoons of water to your cress and cotton wool, ensuring your cotton wool is damp.

INSTRUCTIONS

- Leave your Cress Heads on a windowsill so the light can get to it.
- Water your Cress Heads everyday making sure the cotton wool is quite damp.
