

***This is the time that we may need our imagination  
to help us to escape what is happening around us  
at the moment***

**There are no limits to our imagination and where it can take us, the YMCA challenge you to write a small story.... if you could be anywhere at this moment in time, where would it be..... and why.....**

**The YMCA staff will do one too and compare them when we see you next and look back on our imagination and different wishes ....**

**#Keepsafe**
