

Target Practice

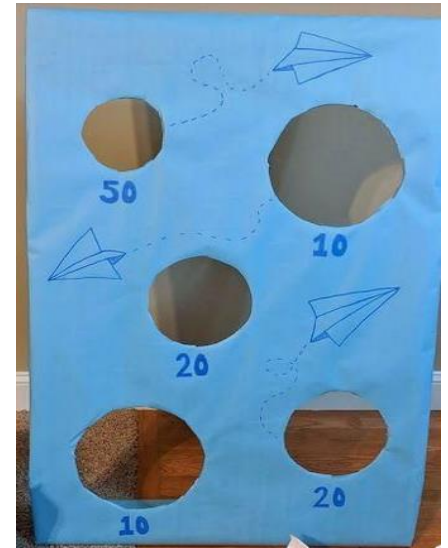

YMCA

To make this simply all you need to do is cut some hole in a piece of cardboard and decorate it however you like

Make yourself a paper aeroplane and fly it, trying to get your plane through the holes to get as many points as possible

Play on your own or with other people in your house hold

To make it more fun why not make it a competition and see who can get the most points or play the first person to 100 points wins

Not sure how to make a paper aeroplane?

Follow below a step by step of how to make a simple paper aeroplane

Fold paper in half-length ways then open it back up again

Fold down each of the top corners meeting at the centre line

Fold it back in half

Fold one edge down till it meets the bottom line

Turn it over and do the same again to the other side

Now open each side up to make the wings

Now your plane is ready to fly
