

## Drill spin art

You will need

- a drill
- a piece of card
- different coloured pens

1. make a hole in the centre of your card and place it on your drill

2. Next take a coloured pen and hold it on the card near the drill piece and gently turn the drill on. This will make a small circle

3. Change your colour and place near the last colour circle and turn on the drill to make a slightly bigger circle.

4. Keep adding different colours until your paper has been filled
